

# Education Assessments

## Testing services for Adults and Children

Learning Disorder assessments including:

- **Dyslexia (reading)**
- **Dyscalculia (maths)**
- **written expression**

We assess and diagnose **Attention deficit disorder:**

- **Inattentive**
- **Hyperactive/ Impulsive**
- **Combined**

### **Autism Spectrum Disorder**

### **Intellectual disability**

And we can provide preliminary testing for

- **Speech and Language Disorders**
- **Central Auditory Processing Disorders**

Dyslexia assessments are probably one of the most sought after tests. Reading difficulties can be symptomatic of other disorders including: auditory and/or visual processing difficulties, attention deficit (ADHD/ADD), speech and language impairment, Intellectual Disability, social and emotional factors, in addition to other considerations. A math disorder is also a recognised learning disorder which can also impact on reading and writing, but can be missed, within a standalone dyslexia test. We test to find out what factors have contributed to the learning difficulty, to guide the most appropriate intervention, and support.

**Both Packages 1 and 2** assess for all learning disorders, including Dyslexia

**Package 1:** includes a comprehensive cognitive assessment which is recognised worldwide. Package one provides comprehensive testing including vocabulary, verbal reasoning, visual spatial processing, visual problem solving, fluid reasoning, memory and processing speed when assessed using the WISC V. The results indicate how an individual performs in contrast to their age-related peers, subsequently providing comprehensive information to guide intervention support. A full cognitive assessment is important when considering a diagnosis. There are upgrade options available. Package 1 has an **optional** - advanced clinical battery of assessments (assessments conducted over 2 sessions – **clinical upgrade** - \$280 + travel if applicable)

**Package 2:** Abbreviated cognitive assessment includes: 2 general subtest score results, verbal abilities, and nonverbal abilities. Both packages 1 & 2 are designed to identify individual strengths and weakness.

**Package 3:** Adult work/career assessments – return to work, promotion, employment suitability – customised to suit your needs

**Package 4:** To accompany an initial report which includes a cognitive assessment. Suitable for re-assessments and for Institutes requiring an updated diagnosis.

We can usually arrange appointments within two weeks. A \$100 deposit is required at the time of booking. Deposits are non-refundable in the event of a cancellation of less than 7 days' notice. We assess during the weekends, evenings, and during school holidays. Testing is completed within one session (one to one) and takes approximately 2-3 hours. We are based in **Queensland** and we have offices at Hope Island in Helensvale, and Springwood. In **New South Wales**, we have an assessor who covers Sydney, Newcastle, Wollongong, and Canberra, and conducts home visits. Our Educational Psychologist in **New Zealand** is based in Wellington and conducts home visits.

The reports typically take 9 hours to complete and we aim to finalise the report within 10 - 12 working days. The balance of payment is due on the day of assessment. Payment options include: cash, bank transfer, or credit card facilities (cards-1.9% surcharge). If alternative payment options are required, payment plans can be discussed prior to assessment.

Packages	Queensland	New South Wales	New Zealand
<b>Package 1: *(clinical upgrade available)</b> Background Information Full cognitive assessment (Language skills, Visual Spatial skills, Fluid Reasoning, Auditory working memory, Processing Speed Verbal & Visual Memory tests Learning disorders & Dyslexia assessment Academic assessments Clinical evaluation <a href="#">Includes extensive report certified by Registered Psychologist</a>	<b>\$690</b> Assessed at either our Hope Island or Springwood assessment centre  <b>\$840</b> *Includes home visit	<b>\$795</b> *Includes home visit	<b>\$795</b> *Includes home visit

<b>Package 4:</b> A re-assessment for Dyslexia and only Dyslexia. Not suitable for an initial diagnosis. You will need to provide the previous accredited report  <a href="#">Includes report certified by Registered Psychologist</a>	<b>\$380</b> Assessed at either our Hope Island or Springwood assessment centre	<b>n/a</b>	<b>n/a</b>

- ❖ The cost quoted includes the cost of the report
- ❖ We do not insist on further appointments in addition to the assessment session, which means there are no hidden costs.
- ❖ If a client meets criteria, we will include the diagnosis
- ❖ We go beyond the diagnosis and try and establish why an individual may have a learning disorder to guide the most appropriate intervention
- ❖ When assessed by a Registered Psychologist in Queensland, part of the cost may be reclaimable through your private health fund

Regards

Joanne Blah
